STUDENTS FEEDBACK

Session -2021-22

ACTION TAKEN REPORT

- As per the feedback, most of the students responded feedback was very good.
- Some students were unsatisfactory about the internet facility, so it was decided to provide the internet facility to each and every student by making college campus wi-fi so that they can search anywhere in the campus premises.
- Though the college has excellent sports facility, due to the COVID-19 pandemic situation, it is not possible to permit the students to play the games. So it was decided to give all access to the students which they like.

No..Perfect all right

.....!

In order to get more success from students, the college administration should invariably provide them the best academic opportunities and organizational infrastructure. Classroom lectures, stereotype seminars and libraries are not sufficient today. Students demand something more innovative and effective in this age of technological advancement. They need highly developed college management system which can support them in the process of education.
